Verse One:

Yo Yo I launch lyrics like missiles
Fully armed like pistols
Shells whistle (whooooosh)
Im tryin to make you miss though
If you come across my path you better tip-toe
Cuz bomb threat, Im Mr. Wolf, who damn sure let the
clips go
Its a cold game
Cold mane chizm
I fit the rhythm
Same time I gave you some wisdom
You cant fuck wit the Jesus
You'll have better luck in the casino
At reno
Playin keno
I'm like battery acid in your ass
Cuz you cant see me
Even if I stood on your bottom eyelid
I drob heavy like avalanches
To make the Earth quake
Try touching skills
You wont see ya next birthday
I'm shutting shit down
At five tornado
When I blow shit down
Chrome pro 4-pound
Securing all grounds
With these bomb type sounds
You feel a couple of rounds
Now you lost and found

Chorus (X2):

All my niggas if you down to wild it up
And you with me holla back
