Chorus:  
When I go in, when I go hard  
There's nobody else on my level  
When I go near, when I go far  
It's over, over.  
Never made what's easy perfect  
Fall for my gift, I'ma read each card  
The list is in my jeans, like my bv jargon  
The faith I give it like CPR.  
Always remember those days when I couldn't go play  
I was singing all day  
No pain, they say there's no gain  
Wasn't giving an old plain  
Doesn't work hard, I was frustrated  
I made mistakes and they hated  
So I prayed then I know its gonna come my way  
I'll be singing to the world some day.  
Ain't give up the fight  
I know wrong from right, I'ma keep it tight  
Where the darkness I can find, a light were shining bright.  
Cause I know  
Chorus.  
Cause I'm here to shine bright  
There ain't no trace to doubt  
When I go in, when I go hard  
It's over, over  
Check  
Since I've been going in, scared of coming out  
I hit him with a hit, the flood's rushing out  
Thought I come to ish, the spin is something else  
Since when I took the chart, I ain't coming down  
My drivet driven by numbers  
I'm from the underground, see the best deprived bastards  
I ain't got a piece of the prizern  
So we should think about the cake, next time we buy a custard  
Hunger for my belly, â€¦ jelly  
Now I'm a vj gets channel for your telly  
Ain't give up the fight  
I know wrong from right, I'ma keep it tight  
Where the darkness I can find, a light were shining bright  
Cause I know  
Chorus  
(It's over)  
Cause I'm here to shine bright  
There ain't no trace to doubt  
When I go in, when I go hard  
It's over, over  
They've been telling me what they want me to bern  
But I, no I make a bigger promise to mern  
And I, put it away so I'ma get one of these days  
One day I'll know  
Chorus  
(It's over)  
Cause I'm here to shine bright  
There ain't no trace to doubt  
When I go in, when I go hard  
It's over, over  
Chorus  
Cause I'm here to shine bright  
There ain't no trace to doubt  
When I go in, when I go hard  
It's over, over.
