I watch you move  
Like poetry through the room  
I look around  
Everybody else got their eyes on you

I hear your voice  
A symphony in perfect tune  
I know that sound  
In a hundred dreams I play it through

I'm gonna find the right words  
Say them like no one you've heard  
Over and over until you believe, my love

It's the touch of your hand  
And the moment we kissed  
I have waited a lifetime long for this  
Now that you understand  
All the reasons I missed  
I will write you a love song with a twist

I'll spell it out  
Never get too sweet  
Just something cool  
To knock you off your feet

There'll be no doubt  
Straight down the line  
Do whatever it takes  
So I can make you mine

I'm gonna find the right words  
Say them like no one you've heard  
Over and over until you believe, my love

It's the touch of your hand  
And the moment we kissed  
I have waited a lifetime long for this  
Now that you understand  
All the reasons I missed  
I will write you a love song with a twist

You can turn it, you can burn it  
You can break it, girl you gotta shake it  
You can make it into anything you want to, baby

Gonna bend you, gonna send you  
Gonna hold you, girl you know I told you  
You can take it anywhere you wanna go

Over and over until you believe

It's the touch of your hand  
And the moment we kissed  
I have waited a lifetime long for this  
Now that you understand  
All the reasons I missed  
I will write you a love song with a twist
