

Angel "No Matter"

Visit "[No Matter](#)" on MotoLyrics.com

Doesn't matter who you are with
Doesn't matter where you are going
Don't you know I'm still waiting here for you
And praying for you

In the sunny days, Sun will light your day
In the windy days, Wind will lead your way
I have to say, you're my treasured moments
Never gonna walk away

In the rainy days, rains will share my tears
In the stormy days, storms will steal my pain
Just go your way and leave things all behind
Spread your wings and fly away

I'm pretending you are mine
I'm wishing you'll be fine
The moments we shared never die
You've made a difference to my life
And let me realize
The feelings I've kept deep inside
