Einar

Yeah..

I went to my job today
I couldn't find my job today
My job was long gone
My job
Where is my job?
My job is
My job is
My job is long gone

I went to my job today
I couldn't find my job
I couldn't find my job
I went to my job today

My job was long, long, long, long,
Long, long, long, long, long, long,
Long, long, long, gone
But I want to job today
I couldn't find my job today
I need my job today
I need my job today
I was involved for work today
I need my job today

I need my job, job,
Job, job, job, job, job
I need my job, job
I need my job today
I need to get it today
