such worthless crust and crazed  
now cring to slap the wrist  
i sense you cracked and weak  
the nonexistent won't care  
when you fail to wake  
i sense you cracked and weak  
i wonder if you would  
i wonder if you could  
please just a small taste  
of the offer unrefused  
bonded by a muddy crippled story  
and now i wonder if you really ever could  
you're no good  
self-sodomize once more  
whore  
slut  
yet fragile and tight  
a reckless mangled conscience  
with only the imbalance of evils  
wait for guidance  
end it all now
