Motions that make gods cringe
running in circles as fast as we can
take what you can 'cause now it's all over
run hot and cold to break the skin
and we won't take no for an answer
for just when the door slams
the pill drops
oh my sweet unknowing partner
the perfect design
the pill drops
so start the silent dance
slumping silhouette
unforgiving hands
harboring regret
play it just once more for old times
yeah....you know you're all I ever wanted
yeah....you know you're all I'll ever want
how we laughed when
we first saw each other... how you screamed
when I saw your eyes melting... this is the end
of every rainbow
and now your face
shatters every waking second
