Is the can half diseased
or is the disease half canned
and is the man half machine
or is the machine half man
I'm unretrofied for you
I'll just fake it in the end
just save it for a new song
and leave dead in the end
time is wasted in the end
wood paneled wagon
carpool dragons killing me
again now they're looting our holes
until there is nothing left
calloused intentions it seems,
coward's invention at best
I'm unretrofied for you jesus
can't play the music
'caused he's nailed to the cross
and over gnawed off feet
I find that I can't walk
I can't even walk we're all dead
