I'm so tired of bein' all alone
So frustrated waitin' by the phone
When i think of everthing i miss
Wonder why i carry on like this
I can't hide my love for you
But i can surely deal without the shit you put me
through

(CHOURS)

You can tell me that ur sorry til ur face turns blue
Outta go out with your brother and your best friend too
Sit on the pourch and drink some more beers
I don't need our 50 cent lovin' round here
Round here (x5) 50 cent lovin' round here

No use tryin' i wont change my mind
You been cheatin honey im not blind
Im not half the fool you took me for
No surprise i don't love you anymore
Take you love and diamond ring
Shove them up your buttercup cause they don't mean a
thing

(CHOURS)

You can tell me that ur sorry til ur face turns blue
Outta go out with your brother and your best friend too
Sit on the pourch and drink some more beers
I don't need our 50 cent lovin' round here
Round here (x5) 50 cent lovin' round here (x2)
