All I can taste is champagne

When it hits the brain like cocaine

Spinning around and around

I can't get up without your help

I'm falling down

All I can taste is champagne

Another day down the drain

Sleeping around and around

I can't wake up without your help

It's over now

You want it

You need it

You can't explain it

You fight it

You beat it

You're killing it

And I can't live without you

I'm moving on without you

Love is like Novocain

And it leaves a little stain

The beauty in all this pain is I can't get away from you

So bowl me down and don't make a sound

You want it

You need it

You can't explain it

You fight it

You beat it

You're killing it

And I can't live without you

I'm moving on without you  
All I can taste is champagne

Dancing away down my veins

Spinning around and around

I can't get up without your help

I'm on the ground  
Somebody help me

I'm losing everything when I'm without you

Doing it without you  
All I can taste is champagne

Another day down the drain

All I can taste is champagne

All I can taste it champagne
