"County Line"

Visit "[County Line](#)" on MotoLyrics.com

There's a place I like to go
Cherry bombs and cherry wine
Just past the Texaco
Down on the county line

Beer cans and cemeteries
Spanish moss on a welcome sign
Catch a buzz we all get scared
Down on the county line

Out where your troubles can't find you
Out where you leave em all behind
Out where the moon shines sweetly
Won't you meet me down on the county line

Kettle corn and 4H babes
Pink slips and white wall tires
Bet you twenty I'll beat you there
Down on the county line

It's first love and football woes
A french kiss and battle cries
Further then I've been before
Down on the county line

Out where your troubles can't find you
Out where you leave em all behind
Out where the moon shines sweetly
Won't you meet me down on the county line

All the church yards and whitewash fences
All the widows and teenage brides
Their all searching for redemption
They're all looking for a sign

Down on the county line (down on the county line)
Down on the county line (down on the county line)

The best things in life are free
It's been right here all the time
It's everything this home to me

Down on the county line

Out where your troubles can't find you
Out where you leave em all behind
Out where the moon shines sweetly
Won't you meet me down on the county line

Out where your troubles can't find ya
Out where we have a real good time
Out where the moon shines sweetly
Won't you meet me down on the county line

Down on the county line (down on the county line)
Down on the county line (down on the county line)
