Turn up your stereo  
I?m coming in loud and clear  
Making it with your girlfriend  
You never knew she was here

We're gonna be the first band on the moon  
Breaking every rule that rings in tune  
I?m staring back at the earth and I don't like what I see  
I?m gonna fall into hell with the radio this way  
And you want to hate me, but you cant deny...you're in  
love

Turn on your television  
It's you you want to see  
You've got your own freak show  
And were the stars this week

We're gonna be the first band on the moon  
Breaking every rule that rings in tune  
I?m staring back at the earth and I don't like what I see  
I?m gonna fall into hell with the radio this way  
You want to hate me, but you cant deny you're in love

We're gonna be the first band on the moon  
We're breaking every rule that rings in tune  
We're gonna be the first band on the moon  
I?m staring back at the earth and I don't like what I see  
I?m gonna fall into hell with the radio this way  
You want to hate me but you cant deny it...you're in love  
You want to waste me but you cant deny it...you're in  
love  
You want to hate me but you cant deny...you're in love
