Oh baby I lied  
Got feelings for you I can't hide  
So sad but it's true  
I lost my mind when I lost you  
Don't look at me that way  
It's hard but I can't let you stay  
We both know where it leads  
I have to let you go  
It's over we both know  
And sorry wont fix us this time

Chorus:  
Words wont help to  
Heal what hurts you  
I did what I had to do  
So don't start crying  
I'll start crying  
My hearts broken too

Well God help me I've been blind  
You just can't change a cheating kind  
We've been down this road before  
I have to let you go  
It's over we both know  
And I'm sorry wont fix us this time

Chorus

Sometimes it seems  
I'd sleep for dreams  
When you were mine  
But with the sun  
The truth becomes  
So clear I can't go back this time

Chorus
