THESE ARE THE DAYS

it's written in our palms and
it's written in our hearts
it's written in our songs and
it's written in the stars
sometimes all we can do
is stand up tall
when their standing in line
just to watch us fall

chorus:
whoa we can't forget
these are the days
whoa don't be afraid
we can't forget
these are the days

well we got eachother and that's
all we need
from here on out it's just you and me
two hometown hearts up against the world
that don't stand a chance against
this boy and girl
we faced 'em down, fought bigger fights
and I know babe we're gonna be alright

chorus:
whoa we can't forget
these are the days
whoa don't be afraid
we can't forget
these are the days

well it feels like were living from
pay check to check
we wake up wondering what might
happen next
yeah, sometimes it feel like we wont
make it through
but the hard times pass

like the good ones do
baby wrap your fingers and
hold on tight
I'll be right here beside you tonight
baby climb up here
watch the city glow
lets make a wish on the fireworks below
were making moments that we wont forget
and feeling ones that haven't happened yet

chorus:

whoa we can't forget
these are the days
whoa don't be afraid
we can't forget
these are the days

whoa
don't be afraid
we can't forget these are the days
