Yesterday, we went insane
Oh my God
I forgot my name
Nervous bitch
That's all I am
I screen my calls
Because I can

You picked me up and we spun 'round and 'round like
before
I lost my patience but I found it on the floor
I'm trying to be someone else today
I'm foolin' everyone but me this way

All choked up, 'cause you're here
Words like glue
Stuck in my ears

You picked me up and we spun 'round and 'round like
before
I lost my patience but I found it on the floor
I'm trying to be someone else today
I'm foolin' everyone but me this way

Wait up, don't wait up, don't wait up, I'm not for sale
Wait up, don't wait up, don't wait up, I'm not for sale

I'm trying to be someone else today
I'm foolin' everyone but me this way
I'm trying to be someone else today
I'm foolin' everyone but me this way
