Intro:

Somewhere in a lonely hotel room

There's a guy starting to realize

That eternal fate has turned his back on him...

Verse 1:

It's 2 A.M. the fear has gone

I'm sitting here waiting the gun still warm

Maybe my connection is tired of taking chances

Verse 2:

Yeah there's a storm on the loose

Sirens in my head

Wrapped up in silence all circuits are dead

Cannot decode my whole life spins into a frenzy...

Chorus:

Help I'm stepping into the twilight zone

Place is a madhouse feels like being cloned

My beacon's been moved under moon and star

Where am I to go now that I've gone too far

Help I'm stepping into the twilight zone

Place is a madhouse feels like being cloned

My beacon's been moved under moon and star

Where am I to go now that I've gone too far

So you'll come to know

When the bullet hits the bone

So you'll come to know

When the bullet hits the bone

Verse 3:

I'm falling down a spiral--destination unknown

Double crossed messenger--all alone

Can't get no connection, can't get through--where are
you

Verse 4:

Well the night weighs heavy on his guilty mind

This far from the border line

When the hitman comes he knows damn well

he has been cheated...

And he says

Chorus

Chorus

Outro

So you'll come to know

When the bullet hits the bone
