Searching in the sky one night, while looking for the  
moon  
I viewed a mighty light approaching in a zoom  
Need was there to tell someone of my discovery  
Fifteen seconds later, a light appeared in front of me  
To my surprise, there stood a man with age and  
mystery  
His name was Jupiter and came to visit me

The name is Jupiter, from the galaxy  
I came to meet you, to make you free  
Deliver to you a flower from  
A distant planet, from where I come

Keep your eye on Jupiter, such beauty in the sky  
We will wait for your return in the by & by  
Keep your eye on Jupiter, memories we shall fulfill  
Just to view a brighter day, and do a righteous will

Watching and considering my visual state of mind  
The flower fragrance help reveal to me the sign  
The sigh of love, I had confessed to live and really  
know  
The sign of love which I had failed my fellowman to  
show

The name is Jupiter, from the galaxy  
I came to meet you, to make you free  
Deliver to you a flower from  
A distant planet, from where I come

The name is Jupiter, from the galaxy  
I came to meet you, to make you free  
Deliver to you a flower from  
A distant planet, from where I come
