for denial
you know that i've been waiting for so long
to be with you
give my hand
you know that i've been held from helping you
un-clean in form

cold within
the waves of my delusion crashing in
i'm burned in sin

darken my eyes
so i will never be
hollow my heart
so i am free

for denial
you know that i've been waiting for so long
to be with you
give my hand
you know that i've been held from helping you
un-clean in form

cold within
the waves of my delusion crashing in
i'm burned in sin

darken my eyes
so i will never be
hollow my heart
so i am free
