Get up smash my face and steal my soul

Find your place find your place and walk right through

Love me love me love me to death

Spit on my virginity, chew my face in, let me be  
controlled

Bomb my pride do me under over and never let it go

And firelights it's a stone, godfever, never leave fever

Watch out the bomb!

Stand out all my veins are pumped I'm loaded

And you're sold to the one you never thought of

Tear me tear me tear me apart

Hit me in the face 'cause I'll always be

Much nearer than you think

Bomb my pride do me under over and never let it go

And firelights it's a stone, godfever, never leave fever

Watch out the bomb!

Watch out the bomb!

I feel love ok it's the saddest day and I want you

I feel love ok it's the saddest day and I want you

Love me love me love me to death yeah

Spin around turn me upside down

Make me scream and sing

I wanna see the wings and stop

B-B-Bomb my pride do me under over and never let it  
go

And firelights it's a stone, godfever, never leave fever

Watch out the bomb!

Wall of sound you can here me knocking

I'll make you do the talking

Right left right it's a stone, godfever, never leave fever

Watch out the bomb!

Watch out the bomb!

Watch out the bomb!

Watch out the bomb!
