What's your name?
What's that makeup shade?
You look like your coming from outer space
Get the hell out of my place
I got a new mantra about it to your face

Kick it up
Kick it up
Keep up with my pace babe, yeah
You got to
kick him out
Kick him out
fly away, fly away
Kick it up

Far away are the happy days
Reminiscing, oh boy it sure was great
And I feel that I've been mis placed
If you wanna face me this is what I'll say

Kick it up
Kick it up
Keep up with my pace babe, yeah
You got to
kick him out
Kick him out
fly away, fly away
Kick it up

Kick it up, fly away, fly away
You don't want to wait
Kick it up, fly away, fly away
