I want you and I don't wanna wait anymore

Faster then any bullet blows

And I need you to kiss me from head to toe

'Cause you're so foxy and it makes me go

Gave you all the answers

Gave you, made you all I had

Let me be remembered as the best of every band who

Ever had a brilliant plan so I ran and ran and what then

I started a rock 'n' roll band best of every band, that's
me and my brothers' band

The Johnny's made the band, and our drummer made
it real to live out our dreams

And why because I wanted you so

So then I wrote songs and I played them for you

And the morning story was my blues
