My blood is warmer when you're here

And Ellie please stay young

My feet are falling I'm not there

And Ellie please stay young

Standing in the rain, watch the shadow of our name

Paint myself in blood and sweat

Runnin' in the fire in the ashes of desire

Failing as you sigh

My blood is warmer when you're here

And Ellie please stay young

My feet are falling I'm not there

And Ellie please stay young

Catching the first train to the city make a name

Of myself and you and her

Screaming love and hate and this is the very name

We can hardly bare

My blood is warmer when you're here

And Ellie please stay young

My feet are falling I'm not there

And Ellie please stay young

Oh, won't you stay young

We are alright now, never gonna lose it
Alright now, never gonna lose it,
Alright now, never gonna lose it now, NOW
My blood is warmer when you're here
And Ellie please stay young
My feet are falling I'm not there
And Ellie please stay young
You're cold, so let me warm your skin
And Ellie please stay young
I love this, wanna go within, now!
We are alright now
Never gonna lose it, alright now
Never gonna lose it, alright now
Never gonna lose it, alright now
Never gonna lose it, alright now
Never gonna lose it, alright now
Never gonna lose it, alright now
Never gonna lose it, alright now
Never gonna lose it now
And Ellie please stay young
