Hello stupid are you still surprised?

We are sick and sad over your scum

Hello daughter are you still alive?

To help us tearing down the walls

We are you and you are us

We love you and you love us

Hello sickly feeling misery?

We are lost souls out of reach

Art is not poetry art is not library

It just make us just tearing down the walls

We are you and you are us

We love you and you love us

Don't feel down don't feel blue

We're around helping you

We are you and you are us

We love you and you love us
