If some of my friends could be monkeys  
They would have four hands and understand me

I wish my girlfriend was a monkey  
With her four hands she would grab me at night  
I would have her on a leash climbing up the trees  
And she could steal a lot of things for me  
I showed her to some kids at night  
They would pet her head to make her feel fine  
My best friend used to be a monkey  
And now he's a Neanderthal  
He makes 4.50 an hour at the local mall  
And I feel bad for him  
Because we used to be best friends  
And now he's gotta wear that stupid hat  
And it fucks with his pride

Monkey-brain soup  
At a monkey-brain party  
Monkey-man suit  
At a monkey-man party  
They are just like us but a little bit feeble  
They are just like us but a little bit fecal  
Monkeys are cool and sweet  
And they make a good pet-name for someone you love
