I do not believe we met before
Or maybe in a darker place
Maybe in a darker place

There's many people singing good songs
So many people singing true songs
So many people singing true songs
This is so not what I wanted
This is so not what I wanted
Not what I wanted
So not what I wanted

This is what I have been waiting for
With my hand on my face
With my hand on my face

People take the time to
Look back and forth
Look back and forth

This is so not what I wanted
This is so not what I wanted
Not what I wanted
So not what I wanted
