Listen people
To what, I say
I say, everybodys got to have their day

And don't you know that
Everybodys got to love somebody sometime
Everybodys got to win a heart
Everybodys got to love somebody sometime
When you do I hope you never part

I once, found love
Found love, just like you
But then, he came
He might come to you

And don't you know that,
Everybodies got to lose somebody sometime
But everybody can part
Everybodies got to lose somebody sometime
So take care, that you don't lose your heart

And take my advice, and you'll always find
And you'll be happy all of the time
Take my advice and you will see
You'll be happy as a you can be

(Repeat 1st verse and 1st chorus)

You'll never part
Listen people
Listen people
