You say my love is all you need, to see you through
But I know these words are not quite true

Here is the path you're looking for, an open door
Leading to worlds you long to explore

Go, if you must move on alone
I'm gonna make it on my own

Kiss me good-bye, love's memory
Follow your heart and find your destiny
Won't she'd a tear, for love's mortality
For you put the dream in my reality

As time goes by I know you'll see this of me:
I loved you enough to let you go free

Go, I will give you wings to fly
Cast all your fears into the sky

Kiss me good-bye, love's mystery
All of my life I'll hold you close to me

Won't she'd a tear for love's mortality
For you put the dream in my reality

Kiss me good-bye, love's memory
You put the dream in my reality
