Destroy the world without a thought
Destroy our lives with your bug bombs
In our food and in our blood
Chemical death to the corporate slut

Pollute the earth with pesticides like ddt
Money, power, profit,
Gain is all you CAN SEE
Everyone pays when we take that route
Dirty water, overcrowded
It's time to take a time out

Keep your head
Use your voice
Speak your mind
You've got a choice
If no one cares
Then nothing gets done
If no one speaks
What's done is done

Pollute the earth with pesticides like ddt
Money, power, profit,
Gain is all you CAN SEE
Everyone pays when we take that route
Dirty water, overcrowded
It's time to take a time out

Destroy our world!
Destroy our world!
Destroy our world!
Destroy our world!
Destroy our world!
Destroy our world!
Destroy our world!

We destroy our world!!
