I love the thought you're eating me it's my desire to be
eaten by you I am your flesh be part of me I'm looking
forward to be slaughtered by you I love the pain inside
of me let's go to diner for the very last time it sounds
insane but not to me it's the perversion of a really sick
mind hang me nail me anything that pales me eat the
other half of me kill me rape me anything that hurts me
eat the other half of me nail me anything that pales me
eat the other half of me kill me rape me anything that
hurts me eat the other half of me
