I don't need your criticisms  
I don't want you idealisms  
Sick and tired of your empty promises  
I don't care what you say

The things that you say to me carry no weight  
Yu turn it around on me with what you say  
Everything has to be always your way  
That's how it seems to me  
That's what i say

I don't care about your virtues  
I don't care about your standards  
Can't be yourself cause you're too lame to be  
I don't care what you say

The things that you say to me carry no weight  
Yu turn it around on me with what you say  
Everything has to be always your way  
That's how it seems to me  
That's what i say

Why do you always have to make problems?  
Think about the words you say  
Before you open your mouth and spit 'em out  
Feel the pain of words

I don't need your criticisms  
I don't need your idealisms  
Sick and tired of your empty promises  
I don't care what you say
