

Dirty Heads, The "Headphones"

Visit "[Headphones](#)" on MotoLyrics.com

When I was tryin' to kill time, I got my headphones,
and when I'm waitin' in line, I got my headphones.
I try to come up with rhymes up in my headphones,
up in my headphones, up in my headphones.

Step in the club and feel the bass from the drums.
Every time I rap, I get stupid dumb.
I got the type of voice to make you bleed from your
gums
so give me some Coke, boy, and don't forget the rum
because it's Dirty J and I don't like to boast.
Well, I'm an MC but I wear my pants tighter than most.
I like spike belts and hittin' high notes.
I like punk rock bitches with the fur coats.
I rock broken laces, sometimes a low brim,
and I got people searchin' for me like I was Animal
Chen.

When I'm just tryin' to kill time, I got my headphones,
and when I'm waitin' in line, I got my headphones.
I try to come up with rhymes up in my headphones,
up in my headphones, up in my headphones.
And when you drive me insane, I got my headphones,
and when I get on a plane, they give me headphones.
Adjust to turn up my brain up in my headphones,
up in my headphones, up in my headphones.

Well, it's the continental beat man, makin' beats, man.
With these headphones, I'm makin' beats while I'm
travelin'.
I got my eyes shut, yo, I got my head back.
And yes, you know I got my volume set to full blast, full
blast.
And if you hear these words then move back
'cause it's the fundamental beat man with the discman
makin' beats in my head the back of the van, yo, in the
back of the van.

When I'm just tryin' to kill time, I got my headphones,
and when I'm waitin' in line, I got my headphones.
I try to come up with rhymes up in my headphones,

up in my headphones, up in my headphones.
And when you drive me insane, I got my headphones,
and when I get on a plane, they give me headphones.
Adjust to turn up my brain up in my headphones,
up in my headphones, up in my headphones.

When I'm just tryin' to kill time, I got my headphones,
and when I'm waitin' in line, I got my headphones.
I try to come up with rhymes up in my headphones,
up in my headphones, up in my headphones.
And when you drive me insane, I got my headphones,
and when I get on a plane, they give me headphones.
Adjust to turn up my brain up in my headphones,
up in my headphones, up in my headphones.
