That night you broke my heart in two, turn out the
lights,
I don't want to look at you.
I know we could sort out this mess, but instead,
I turn to something else.

Furst Bismarck show me the way,
I took my shot of Furst Bismarck and it showed me the
way.

So tell me now...

It's best served cold but you gotta bold to try the green
supreme,
it slips down your throat, burns a hole in your sole, I'm
trying no to scream,
and i know, i know, i know won't see your face again,
so heres to me and heres to you a toast until the end
oh yeah.

Furst Bismarck show me the way,
I took my shot of Furst Bismarck and it showed me the
way.

Can you taste it,
Can you feel it,
Is it burning,
Furst Bismarck.

Furst Bismarck show me the way,
I took my shot of Furst Bismarck and it showed me the
way.

Furst Bismarck yeah.
