I'm gonna hypnotise, I'm gonna hypnotise you,  
Into something I can't refuse.  
I'm gonna justify, I'm gonna justify this,  
and it's something I can't dismiss.

I'll be there some day, Ill be at the disco.  
Just look for me, I'll be at the disco.  
We'll meet some day, we'll meet at the disco.  
I'll take you some day, I'll take you then we'll go down...

I'm gonna hypnotise, I'm gonna hypnotise you,  
Into something I can't refuse.  
I'm gonna justify, I'm gonna justify this,  
and it's something I can't dismiss.

I'll be there some day, Ill be at the disco.  
Just look for me, I'll be at the disco.  
We'll meet some day, we'll meet at the disco.  
I'll take you some day, I'll take you then we'll go down...

Everytime I go around these things come back to me,  
and I  
I don't know what to say, my head begins to sway, and I  
I don't know what your looking for but I know we'll meet  
someday, and I  
I don't know for sure but I know we'll be ok, and I

I'll be there some day, Ill be at the disco.  
Just look for me, I'll be at the disco.  
We'll meet some day, we'll meet at the disco.  
I'll take you some day, I'll take you then we'll go down...
