"Eyes Wide Open"

Watching the world from above the clouds,
A beautiful high, and I can't come down,
Losing my senses, out of space,
State of mind, you can't replace,
Who would have thought the stars are true,
Close my eyes, I'm next to you

Watching the world from above the clouds,
A beautiful high, and I can't come down,
Losing my senses, out of space,
State of mind, you can't replace,
Who would have thought the stars are true,
Close my eyes, I'm next to you

Close my eyes, I'm next to you

Close my eyes, I'm next to you
