What would you say if I said something strange to  
make a difference  
And how you feel  
What would you do if I did something out of the blue  
To make the world a better place  
Oh I think I will

Gonna change for a break  
Gonna take your heart and make it mine this time  
Oh I, I think I will  
I'm gonna run til I find another way to make you mine in  
time  
Oh I, I think I will  
(I think I will)

What would you give if I give you everything  
And that's for nothing  
How would you feel  
What would you think if I thought about doing  
something good  
Yeah just to make you smile  
Oh I think I will

Taking it slow  
Putting a right goal  
More like no other think I will  
???  
???  
Oh how positive  
I think I will
