Just a blank and empty store  
Another number stuck in line  
Generation gone nowhere  
Are we all losin' our minds, our minds

Things are fallin' all down  
Should we let the world fall apart  
Fallin' down all around  
Won't let this world break my heart, no

This is the last time  
I let the world get the best of me  
Never break me  
Never gonna take me alive

We humans live on misery  
Born to punch the clock each day  
Is there really freedom of speech  
Or do we watch what we say, I say

Things are fallin' all down  
Should we let the world fall apart  
Fallin' down all around  
Won't let this world break my heart, no

This is the last time  
I let the world get the best of me  
Never break me  
Never gonna take me alive  
You'll never take me alive

And my heart is all mine and my mind is free  
That's all the revolution, revolution that I need  
And my heart is all mine and my mind is free  
That's all the revolution, revolution that I need

And my heart is all mine and my mind is free  
And the fire it burns deep inside of me  
And my heart is all mine and my mind is free  
And the fire it burns deep inside of me

I try to do all that I can to make a better me

Change yourself and then the world  
Always speak what you believe, I believe

Things are fallin' all down  
Should we let the world fall apart  
Fallin' down all around  
Won't let this world break my heart, no

This is the last time  
I let the world get the best of me  
Never break me  
Never gonna take me alive

This is the last time  
I let the world get the best of me  
Never break me  
Never gonna take me alive  
You'll never take me alive
