The road of life is paved with extremes  
Broken hearts and shattered dreams  
Reaching out for things that aren't real  
Let them dictate the way we feel

Don't you know - It's your best interest to go with the flow  
Can you see - It's what we both need for you and me

I'm taking the middle way - I'm taking the middle way  
I don't care what you say - I'm taking the middle way

Spin the wheel where does it stop  
Around and round till you've had enough  
If I define cause and effect  
Your choice is liberty or death

Don't you know - It's your best interest to go with the flow  
Can you see - It's what we both need for you and me

I'm taking the middle way - I'm taking the middle way  
I don't care what you say - I'm taking the middle way

What if I told you that the world was gonna end  
tomorrow  
Would you re-evaluate - Try to moderate - Get some  
insight  
And try to understand your world - Your world

So many ways in which things transpire  
We search for a way to put out the fire  
Like a kid with matches in hand  
A metaphor for the flames that I fan

Don't you know - It's your best interest to go with the flow  
Can you see - It's what we both need for you and me

I'm taking the middle way - I'm taking the middle way  
I don't care what you say - I'm taking the middle way

I'm taking the middle way - I'm taking the middle way  
I don't care what you say - I'm taking the middle way
