Intro: Let's go!

She always hunger for my heart to take,
I'm absorbing all the pain she feels,
I believe I've fallen asleep but I'am awake,
Now I don't know the difference between
Suffer and joy,
But its when love turns to hate,
And day to night,
And black to white,
Then I totally understand it all,
No ones gonna catch me when I fall,

Vers: My broken dreams always there,
To remind you that you're not here,
There is always something that's going wrong,
It was a waste of time and now its all gone,
Im holding on to my broken dreams,

Ref: All the dark nights that carry my heart,
On and on we are falling down,
And every day feels like we walk into a war,
We picked our fights every now and then,
I never felt so alone again,

I miss her so.

Vers: All the stars are falling down on this dark night,
Im walking trough the tunnel with the familiar light
Im grieving for something that Im not,
I can still read your silent signs I think at least,
I feel like drowning I don't know if can come up again

Ref: All the dark nights that carry my heart,
On and on we are falling down,
And every day feels like we walk into a war,
We picked our fights every now and then,
I never felt so alone again,

I miss her so.

No ones gonna catch you when you fall!
