Vers: I cant say that I dont miss her,
Her cold voice is filled up with lies,
I'd slit my wrist to take it back,
Five steps back we walk into the steps of the past,
I'm sorry that I left you when I buried myself alive

Ref: Great Shadows are Swalling me now
Nothings like this,
My heart is filled up with sorrow
There will be no tomorrow,
Torned pictures of memories that cant be accepted,
We live in symbios now
Symbios now

Vers: she's my mirror of cracked dreams,
You were a failure but I still think of you,
"I hate you" are the choking words,
I'm lost now for the purpose we forgot,
Honest kisses that is a usual language for I love you

Ref: Great Shadows are Swalling me now
Nothings like this,
My heart is filled up with sorrow
There will be no tomorrow,
Torned pictures of memories that cant be accepted,
We live in symbios now
Symbios now
