Ha-ha I don't need no sex

I just wanna get with you

Oh, all I wanna know is can I get with you?

Don't lead me on

Can I get with you?

Girl it's you, it's you

It's them things that you do

It's all about you, it's you

I just want to get with you

Girl, I see you shaking your butt, baby what?

What'cha trying to do?

I don't need a little time cause tonight you're mine

Have a drink or two yeah

Girl let's have some fun

You said that's what you really want

I got what you need

And I will fulfill all of your dreams

We can ride all night long

If you want

We can play our favorite movie and stay home

Cause no matter when or what we do

I wanna get with you, oh yeah

Oh, all I wanna know is can I get with you?

Don't lead me on

Can I get with you?

Girl it's you, it's you

It's them things that you do

It's all about you, it's you

I just want to get with you

Step in my ride I need company

I'm under that portion that you opened up for me

What you wanna do? Yeah

Cause I need to be with you

Anything you're wanting

Whatever you need, whoa, whoa

We can ride all night long

If you want

We can play our favorite movie and stay home

Cause no matter when or what we do

I wanna get with you, oh yeah

Oh, all I wanna know is can I get with you?

Don't lead me on

Can I get with you?

Girl it's you, it's you

It's them things that you do

It's all about you, it's you

I just want to get with you

We can ride all night long

If you want

We can play our favorite movie and stay home

Cause no matter when or what we do

I wanna get with you, oh yeah

Oh, all I wanna know is can I get with you?

Don't lead me on

Can I get with you?

Girl it's you, it's you

It's them things that you do

It's all about you, it's you

I just want to get with you
