Tell me how can you

Believe everything you hear

She ain't telling you

Cause she really wants to be here with me

And she would do anything to get with me

So please, don't believe a thing that she says to you

1 - Did she say that she, that she be calling me baby

When she told you I was no good

And how all the time she tried to give it to me

Did she say that she wanted me?

Did she say?

Think the first time that she stabbed you in your back

Open up your eyes and see

A real friend wouldn't do that

Cause you need to sit her down

And let her know

You can't mess up a good thing so go

I just wanna know one thing, baby did she say?

She said I want some more

Making all sorts of plans

Trying to get me away from you

And it as soon as you're gone

She's tried to get it on

Baby don't you listen to what she say
