This is my perception of what's going on  
This is my perception of what; s going wrong  
With mind separation, as you float to the sun,  
With a psychedelic sidekick that's sparking in your  
mind  
I can see it in your eyes, I can see it just fine  
You're a crossed-eyed catastrophe, fumbling,  
Bumbling into the wall you see  
And I'm here to watch you fall; I'm here to get you  
through this all  
Confronting your demons and thoughts you've never  
had before  
Intricate thinking, and thoughts you've never had  
before  
This is what happens when you open that door, you're  
dwelling so  
Deeply passed out on the floor, eeah!  
Cross-eyed catastrophe, seeing things you've never  
seen before  
You're passed out chasing the dream  
Wake up and I'll decipher everything!  
Confronting your demons and thoughts you've never  
had before  
I watched you feel so good, you looked amazed  
I watched you eyes get heavy and start to glaze  
Cross-eyed catastrophe  
Cross-eyed catastrophe, seeing things you've never  
seen before  
You're passed out chasing the dream,  
Wake up and I'll decipher everything!  
So meet your demons, they're here to stay  
Meet your demons, they'll never go away  
Cross-eyed catastrophe, seeing things you've never  
seen before  
You're passed out chasing the dream,  
Wake up and I will help you decipher everything!  
So meet your demons, they're here to stay  
Meet your demons, they'll never go away  
Ohhh!  
So meet your demons, they're here to stay  
Cross-eyed catastrophe, seeing things you've never

seen before  
You're passed out chasing the dream,  
Wake up and I'll help you decipher everything!
