Here is a knife

Here is a pointy daggery knife

Here is a knife

And it's pointing to you

Here is a life

Here is a tender trembling life

Herre is a life

And it's quivering under you

Here is a dream

Here is a sweet and terrible dream

Here is a dream

And we're in the middle of it

Oh come off it-not again-do we have to go through all
of this again?

All of this again

Here is a knife

Here is a pointy daggery knife

Here is a knife

And it's pointing to you
