So many things I've tried in my life
Been so many places
You could say I know some faces well
And so many times I've cried in the dark

With a broken promise tearing me apart
Days go by, you're still on my mind
And I don't know what it is, I think about that time
I wish that you were only mine

This, this is who I am, I hope you understand
That this is what I wanna do
And you, you don't think it's true
Could I believe in you?

So just tell me what you wanna do
So many times I tried to be strong
So many times
When people did me wrong

If I could change the way
You feel deep down in your heart
You and me
We would never be apart

Days go by, you're still on my mind
And I do know what it is
I think about that time
I wish that you were only mine

And this, this is who I am, I hope you understand
That this is what I wanna do
And you, you don't think it's true
Could I believe in you?

So just tell me what you wanna do
So many times I tried to be strong
So many times
When people did me wrong

If I could change the way
You feel deep down in your heart

You and me
We would never be apart

You don't know, what you might find
Everybody falls sometime
But you don't have to look around
'Cause I feel

This is me, who are you
What am I supposed to do?
This is me, who are you
What am I supposed to do?

This is me, who are you
What am I supposed to do?
This is me, who are you
What am I supposed to do?

This, this is who I am, I hope you understand
That this is what I wanna do
And you, you don't think its true
Could I believe in you?

So just tell me what you wanna do
So many times I tried to be strong
So many times
When people did me wrong

If I could change the way
You feel deep down in your heart
You and me
We would never be apart
