Dance into my life  
if only for a while  
whirl me round and round  
dance me like an angel-child

He's passing thru my world  
he doesn't even know  
time's not on my side  
with no word or goodbye I'll go  
so dance on, right now I wanna  
dance on  
until the moment's over  
and I'll be going home  
just dance on, right now I wanna  
dance on  
I can't let him notice  
the tears in my eyes

Dance into my life  
and hold the moment fast  
make believe in us  
'cause nothing real in life can last

Dance within my life  
dance me to the door  
I can't see the time  
but the time has come for sure

So dance on, right now I wanna  
dance on  
until the moment's over  
and I'll be going home  
just dance on, right now I wanna  
dance on  
I can't let him notice  
the tears in my eyes
