Don't you believe that your dreams  
all come true  
The fairy tale world inside can bring  
it to you  
you just have to wish and you take  
off and fly  
On a fairy tale high, fairy tale high  
Fairy tale high, fairy tale high

When you were young, you were full  
of those dreams  
then as you grew older they faded it  
seems  
but all of that glitter can turn into  
gold  
On a fairy tale high, fairy tale high  
Fairy tale high, fairy tale high

Just look around you the dark clouds  
are far  
stand on your tips-toes and reach for  
a star  
as stardust come sprinkling it will  
brighten your eyes  
On a fairy tale high, fairy tale high  
Fairy tale high, fairy tale high
