I remember yesterday...  
I remember that first night we met  
Dancing to the sounds of clarinets  
Dancing cheek to cheek, oh how sweet  
You and me and this fantasy  
Oh I remember our first night  
I remember how we carried on  
On and on until the light of dawn  
From the very start, you stole my heart  
I knew right then we would never part  
Oh I remember that first night  
Remember that first night  
Remember that first night  
Remember that first night  
I saw your lovelight through the candle's glow  
Champagne was flowing, and so I let myself go  
And when the night was over,  
we both looked around the room  
Remember darling, chairs on the table,  
and only me and you  
I remember how we carried on  
On and on until the light of dawn  
And from the very start,  
you stole my heart I knew right  
then we would never part  
I remember that first night  
Remember that first night  
Remember that first night  
Remember that first night
