Many heartaches I put you through  
so much trouble and pain  
so many tears I made you cry  
I'll never put you through that again

I'm gonna make every minute count  
and cover you with all my love

If it makes you feel good  
I'm gonna make it all up to you  
if it makes you feel good  
I'm gonna love you through, through and through

You're not alone in the world  
there's always someone who cares  
this time I'm sure I'm your girl  
I'm not going anywhere

Let me show you what the girl can do  
I'll cover you with all my love

Repeat chorus

I kept you waiting for so long  
now I see that I was wrong  
I guess I love you oh so much  
now I thrill to your touch

I kept you waiting for so long  
now that's all in the past  
don't you say you can't go on  
I'm gonna give you love that lasts

I'm gonna make every minute count  
and cover you with all my love

Repeat chorus
