What went wrong
I was so sure that love had led me to
your door
was it a dream, nothing more

Inside my head
we can hold on to each other if we try
and make it right, for you and I
there's no goodbyes

Chorus:
Only the fool survives
only the heart provides
sweet love and tenderness
save us tonight

Life is a change
but I never want to leave this love behind
we've come too far to lose this time
Where there's love
there is nothing strong enough to come
between
what we believe
and break us up where there is love

Chorus

Only the fool survives
even the hardest times
let all the love we share
keep us alive

See your eyes in a million faces
see your smile in a thousand places
and I never escape your memories

You'd be there everywhere that I go
you're the only real thing I know
and I never wanted to be free
stay here with me

Chorus
