Spent the best of my life running scared  
in the city  
left my shoes and my clothes and  
my lovers behind, yeah  
Oh but i felt incomplete  
living out there in the street  
I was always alone and afraid  
such a pity  
little girls just don't know what comes  
out after dark  
but the devil was'ts in heart  
down on that dead end street  
Chorus:  
And I say  
running for cover  
running for cover  
running for cover  
It's keeping me running  
I'm just scared that he's out tonight  
It's keeping me running  
I don't know why, but its getting dark  
say the devil's in the park  
And I say  
running for cover  
running for cover  
running for cover, now  
Life is really so hard when you live in  
the city  
no one knows what a young girl  
has on her mind, yeah  
but you're headed for defect  
down on that dead end street  
Never learned of the lesson  
you should, such a pity  
Still and all you'll stay with  
the others behind  
And the promise in the dark  
is that the devil's in the park...
